PROJECTS

Portfolio

This is my personal portfolio, which provides information about me. It is a static website created using React and React Hooks.

ishankarki.com.np

Rock-Paper-Scissor game

This is a Rock-Paper-Scissors game developed using React and React Hooks, with Tailwind CSS for styling.

https://github.com/Dr-Vegapunk/SimpleRockPaperScissor_Game.git

E-Commerce Website Admin Dashboard

Developed an admin dashboard for an e-commerce website using the Platzi Fake API. This application provides comprehensive management features for products, orders, and user accounts. The dashboard allows administrators to perform tasks such as adding and editing products, managing orders, and overseeing user activity. It leverages modern web technologies to deliver a responsive and user-friendly interface.
